Leaves must be out by the first day of the scheduled pick-up.

Please do not mix brush and limbs in with the leaves. Brush is disposed in a completely different way and limbs cannot be vacuumed into our leaf collection boxes.

Leaves should be raked one foot away from the gutter onto the street to allow drainage in the gutter. For streets without curbs, leaves must be as close to the road as possible. **Please do not rake leaves around mailboxes, trees, etc.** Vehicles should be removed from the streets on collection dates. Foreign objects and limbs must be kept out of the leaves. Township residents who do not live along the planned routes or in a less populated area can request leaf pick up by calling 339-1492.
